

IDENTIFY AND MITIGATE COMPETENCY RISKS IN YOUR GLOBAL WORKFORCE

Wipro's Competency Risk Management (CoRM) Solution

One inexperienced decision by an employee or contractor can seriously damage a well-established business. Modern subcontracting makes it difficult for core businesses to identify the competency risks hidden within composite workforces.

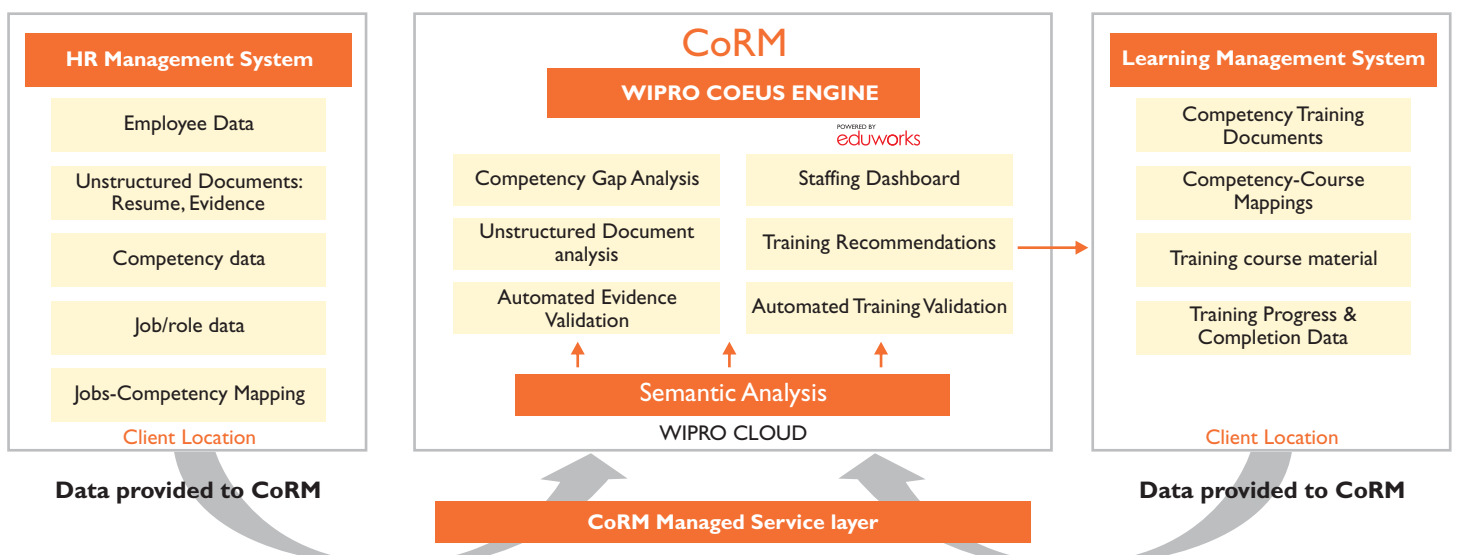

Does your organization have the right tools to hire the right people and manage their skills, knowledge and behavioral traits ?

Wipro's Competency Risk Management (CoRM) solution offers companies an objective means of managing people risks by evaluating the competencies of employees before they are assigned to tasks. CoRM enables companies to standardize their competency model, identify gaps in key positions and core skills, define proficiency levels, and assign and monitor training. This process is carried out at the level of individual employees and takes into account the tasks to which they may be assigned.

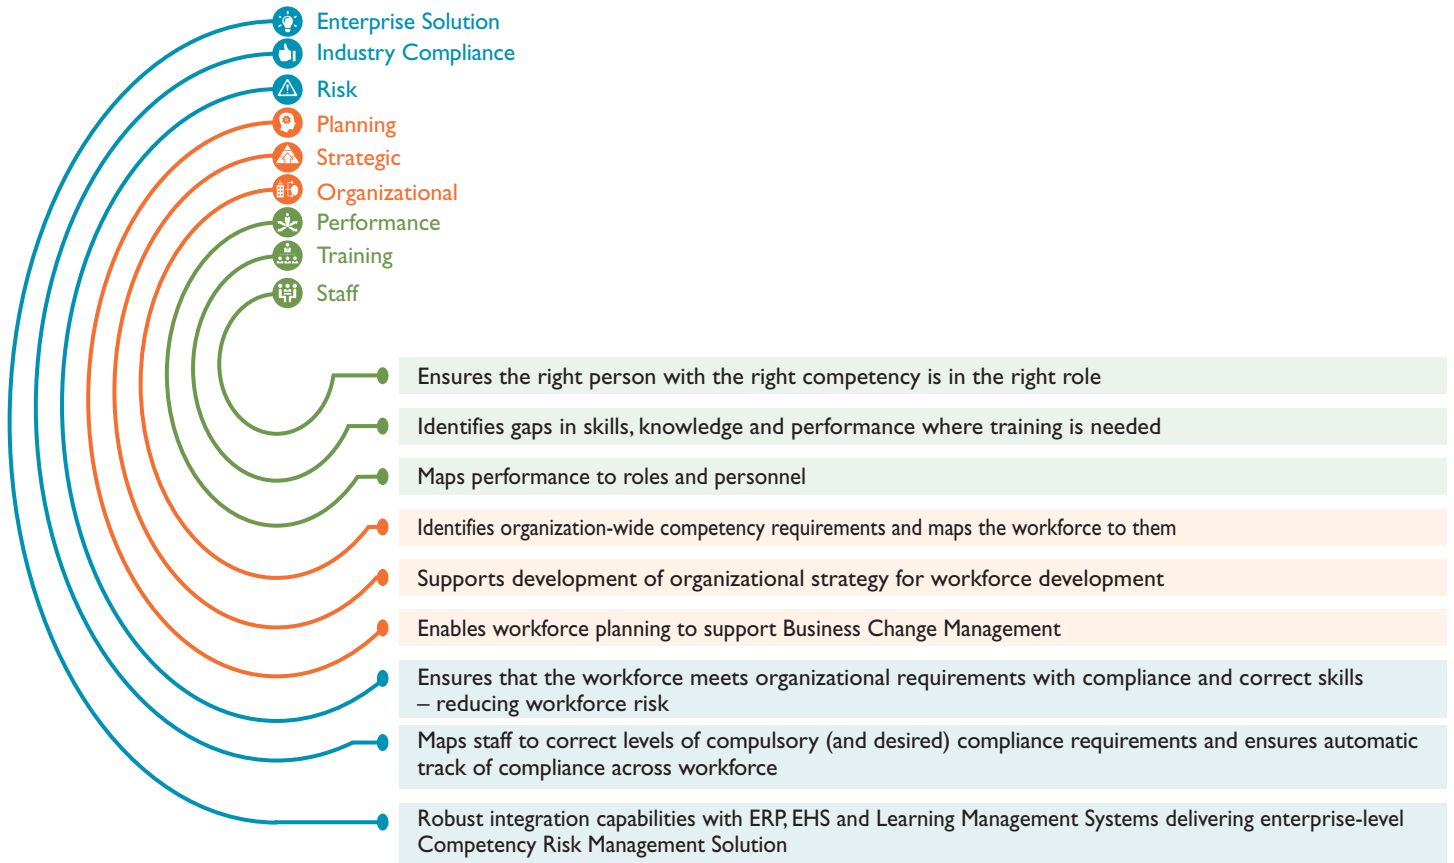

Key Features

- Risk Management Dashboard
- Unstructured Document Parsing
- Competency Gap Analysis
- Training Gap Analysis
- Automated Evidence Validation
- Integration with ERP and Learning Management System
- Management System

The CoRM managed service is hosted on our Cloud technology and provides our clients a fully supported managed service solution and provides sophisticated accurate solutions to resolve organisational problems.

Business Benefits of CoRM

The Wipro CoRM solution is a managed service provision that utilises a powerful set of innovative tools to support workforce management

Our CoRM solution will enable you to proactively manage organisational risk and support staff competencies.
